

Hélder Cruz

Junior Software Engineer | Backend & Full-Stack

Braga, Portugal | +351 914096517 | heldercruz2004@gmail.com | heldercruz.dev | [LinkedIn](#) | [GitHub](#)

PROFILE

Junior Software Engineer with a Bachelor's degree in Informatics Engineering and hands-on experience through internship and freelance projects. Strong foundation in Java, Python, C, JavaScript/TypeScript and SQL, with practical experience in full-stack development, REST APIs, relational databases, Git, Docker and production deployments. Focused on backend and full-stack software engineering, with a strong problem-solving mindset and commitment to code quality.

WORK EXPERIENCE

Junior Frontend Developer Intern | Compear | Remote | Aug 2025 - Oct 2025

- Implemented frontend and backend features using Elixir, Phoenix LiveView, React Flow and JavaScript.
- Fixed 15+ production bugs across frontend and backend, prioritising by severity and tracking resolution through the team workflow.
- Collaborated in an 8-person multidisciplinary team using GitHub, pull requests, code reviews and Docker, working with developers, UI/UX, marketing and stakeholders.

PROJECTS

Casa Benfica Lenzburg - Full-Stack Web Platform (Freelance) | casabenficalenzburg.ch | Present

- Developed and deployed a production platform using Next.js, React, TypeScript and Supabase/PostgreSQL, covering the public website and internal management systems.
- Built 8+ back-office modules with REST APIs, authentication, relational data modelling, server-side validation, administrator permissions and external integrations.
- Owned deployment and ongoing production maintenance, troubleshooting live issues and implementing fixes across the application stack.

NeuroFly - Personal Project | Python / Data Processing

- Developed Python tooling to process, validate and transform public Drosophila connectome datasets for an interactive simulation-oriented application.

Additional Freelance Projects - HAUSB & XV Studio | hausb.pt | xvstudio.ch | Present

- Designed and developed responsive production websites for client businesses, including branding, multi-page interfaces and contact/conversion flows.

EDUCATION

Bachelor's Degree in Informatics Engineering | University of Minho - Braga, Portugal | 2022 - 2026 | Final grade: 15/20

Relevant coursework: Software Engineering, Object-Oriented Programming, Algorithms & Complexity, Databases, Operating Systems, Computer Networks & Distributed Systems.

SKILLS

Languages: Java | Python | C | C++ | TypeScript | JavaScript | SQL | Elixir

Front-End: React | Next.js | Vue.js | HTML | CSS | Tailwind CSS

Back-End: Node.js | REST APIs | Phoenix LiveView | Authentication | Server-Side Validation

Databases: PostgreSQL | Supabase | MongoDB | Relational Data Modelling

Tools & Practices: Git | GitHub | Docker | Linux | Postman | Automated Testing | CI/CD Fundamentals | AI-Assisted Development (Claude Code, Codex)

LANGUAGES

Portuguese (Native) | English (C1) | Spanish (B1) | German (A2) | French (A2)
